Professional Experience

Digital Specialist Engineer Level 2 (DSE L2)

April 2025 – Present

Infosys

Delhi, New Delhi

- Serving as a **Lead Spring Boot + Angular Developer** for a major telecom client, driving feature delivery using Agile (Scrum) methodologies.
- Spearheaded backend performance optimization by restructuring SQL logic and implementing JSON objects, **reducing critical query execution time by 50%**.
- Directed and mentored an offshore development team of **5 engineers**, managed daily stand-ups, delegated tasks, and ensured timely delivery of milestones.
- Resolved multiple high-priority iTrack production tickets, significantly improving system stability and end-user satisfaction.

Digital Specialist Engineer Level 1 (DSE L1)

April 2024 – March 2025

Infosys

Delhi, New Delhi

- Mitigated **400+ Veracode security vulnerabilities** (including SQL injection, XSS, and CORS issues) across the application codebase.
- Engineered** and deployed a key work order panel module using Angular/Spring Boot, streamlining operator workflow and improving efficiency.
- Deployed Single Sign-On (SSO)** across **Production, UAT, IST, and Development** environments, strengthening authentication and user access management.
- Authored and maintained comprehensive technical documentation, including API integration guides, for cross-functional team adoption.

Digital Specialist Engineer (DSE)

September 2021 – March 2024

Infosys

Delhi, New Delhi

- Drove** the design and delivery of user stories, features, and bug fixes while maintaining application security and performance.
- Developed** and participated in architecture/design discussions for REST APIs for backend systems.
- Enhanced API response times by **40%** through code refactoring and caching strategies; applied SQL tuning to boost query performance by **25%**.
- Completed intensive foundational training in JavaScript, TypeScript, Angular, Java, Spring Boot, and Git.

Software Trainee

February 2021 – August 2021

Jellyfish Technologies

Remote, New Delhi

- Developed the frontend of the **“Immo Snapp” Android app** using Angular + Ionic, enhancing user experience and load performance.
- Resolved **50+ production bugs** within the first six months, significantly improving application stability.
- Established** offline chat functionality with local storage for chat previews, **reducing initial load times by 35%**.

Technical Skills

Core Languages: C/C++, HTML/CSS, **Java** (Spring Boot), **JavaScript**, Python, SQL, **Typescript**

Frameworks: **Angular**, **Spring Boot**

Developer Tools: Azure Devops, Chrome Dev tools, Git, IntelliJ, Postman, Spring Tool Suite, Version Control, Visual Studio Code

Projects

Indian Sign Language Recognition Using CNN

Python, TensorFlow | Feb 2021 – Jul 2021

- Created a real-time application for Indian Sign Language recognition with a vision-based approach, achieving **98% accuracy** with a custom dataset.

Shaurya Portfolio

HTML, CSS, BOOTSTRAP, JAVASCRIPT | Nov 2022

- Designed and implemented a responsive portfolio web application (shauryasingh.vercel.app), ensuring cross-device compatibility and performance with Bootstrap.

Education

Maharaja Surajmal Institute of Technology

Delhi, New Delhi

Bachelor of Technology in Information Technology (GPA- 8.6)

August 2017 – August 2021

Achievements

- Inducted into the **Platinum Club**, awarded to the **top 1%** of performers in the role.
- Received 4 **Insta Awards** in recognition of outstanding performance and contributions.
